

## QINEO StarT 402 Eco

**MIG/MAG welding power source up to 400 ampere for manual welding**

Simply weld better with the QINEO StarT: The welding power source offers you an easy entry into the world of manual welding. Use the advantages of the three available CLOOS welding processes in addition to the standard processes. This allows you to start welding immediately – without a long parameter search. Benefit from numerous optional components and functions. This makes the QINEO StarT your individual power source - exactly as you need it for your manual welding tasks.

- High-quality components with optimum price/performance ratio and excellent welding characteristics
- Faster to the target with the preset parameters of three CLOOS welding processes
- Choose the wire drive that best suits the welding task
- Simple, quick and intuitive operation with the MasterPlus Compact operating module
- Modular design and extensive accessories for flexible application possibilities adapted to individual requirements

## QINEO StarT 402 Eco

### Technical Data

Construction form	External wire drive
Welding current	15 A - 400 A
Welding current 100% duty cycl	400 A
Open circuit voltage	78,7 V
Connection cable	4 x 6 mm <sup>2</sup>
Mains protection/400V	32 A
Type of protection	IP 23
Insulation class	F
Type of cooling	F
Dimensions L/W/H (without wire	819 x 348 x 498 mm
Weight (without wire drive)	56 kg

### Application

Manual

### Process

- MIG Brazing
- MIG/MAG singel wire
