

QINEO MHW-510 Eco

MIG/MAG manual welding torch, water-cooled, up to maximum 510 A welding current

The robust MHW-510 Premium manual welding torch is water-cooled and designed for a welding current of up to 510 A. The manual welding torch convinces with excellent cooling properties thanks to a highly efficient water feed in the torch body. This allows a very long service life of the consumables. It has an ergonomic handle which lies slip-proof in the hand of the welder because of silicone inlays.

- Optimum gas coverage at the most compact design:
Good accessibility also in narrow components
- Ergonomic handle: Optimum handling and minimised strain on the wrists
- High cooling capacity due to efficient water flow:
Maximum service life
