

QINEO StarT 502 C Master

MIG/MAG Pulsed arc welding power source up to 500 ampere with integrated wire drive for manual welding

- High-quality components with optimum price/performance ratio and excellent welding characteristics
- Faster to the target with the preset parameters of four CLOOS welding processes
- A wire drive unit which is integrated in the power source ensures a slip-free and powerful wire feed.
- Simple, quick and intuitive operation with the MasterPlus Compact operating module
- Modular design and extensive accessories for flexible application possibilities adapted to individual requirements

QINEO StarT 502 C Master

Technical Data	
Construction form	Internal wire drive
Welding current	15 A - 500 A
Open circuit voltage	78,7 V
Connection cable	4 x 6 mm²
Mains protection/400V	32 A
Type of protection	IP 23
Insulation class	F
Type of cooling	F
Dimensions L/W/H (without wire	805 x 348 x 643 mm
Weight (without wire drive)	75 kg

Application
Manual

Process
<ul style="list-style-type: none">• MIG Brazing• MIG/MAG singel wire• MIG/MAG singel wire Pulse
